

PRODUCT INFORMATION

POWERMATIC-FIRSTFIX

STRONGER - EASIER ON THE NET - LESS EXPENSIVE - FASTER

CONCRETE:

- ✓ Assembly at lightening speed through centred impact on column top
- ✓ The Powermatic cap is ready assembled at delivery
- ✓ Extraordinarily high outlet resistance e.g., at 7x7 and 8x7 concrete columns from Spinazze
- ✓ Extremely high longitudinal and lateral stability of the columns through clamping of horizontal ribs that goes easy on the columns
- ✓ Built-in vibration damping for ridge wire
- ✓ Separate ridge wire anchorage by using screw nuts, enabling a comfortable and exact assembly of the hail netting
- ✓ Easy hail net positioning:
the net will not be jammed but arranged around the screw nut through thread displacement

RESUME:

Quick assembly; delivered ready assembled; very high outlet value as well as longitudinal and lateral stability; Extremely limits the risk of net, wire and column damage
